ABOUT US

OUR COMPANY

E-Wash plays a crucial role in helping South Africa conserve its precious water resources by offering a revolutionary water saving carwash solution. With traditional carwashing methods consuming large amounts of water, our innovative approach eliminates the need for excessive water usage altogether. By utilizing advanced cleaning agents and techniques, we ensure vehicles are thoroughly cleaned with less than a liter of water. This not only saves countless liters of water but also prevents runoff pollution, making E-Wash an environmentally friendly and sustainable alternative. Together, we can make a significant impact on water conservation and contribute to a greener future for South Africa.

OUR MISSION

Our mission at E-Wash is to provide an exceptional water-saving car wash service that exceeds customer expectations while minimizing our ecological footprint. Through our innovative techniques, superior products, and dedicated team, we strive to deliver convenience, quality, and environmental sustainability to car owners across South Africa. We aim to be the preferred choice for eco-conscious individuals and businesses seeking a reliable and effective car cleaning solution.

OUR VISION

At E-Wash, our vision is to be a pioneering force in water-saving car washing, revolutionizing the industry, and driving sustainable change in water-scarce South Africa. We strive to become the go-to solution for eco-conscious individuals and businesses, providing a convenient and environmentally friendly alternative that preserves our precious water resources.

WHAT WE DO

CAR DEALERSHIP CAR WASH

E-Wash efficiently manages and fulfills all your dealerships car wash requirements right at your location. Our compact and portable car wash machines are designed to meet your needs while conserving water, electricity, time, and money.

CAR HIRE CAR WASH

Trust E-Wash to Keep Your Vehicles Spotless! As a car rental service, it's crucial to maintain a clean and polished fleet to ensure customer satisfaction and keep business running smoothly. Let E-Wash handle your car care needs. Our trained professionals guarantee that each car is spotless and has a showroom finish, ready for the next customer.

CAR SERVICE CAR WASH

At E-Wash, we guarantee that your customers will give you a five-star rating with our immaculate car wash and polish services. Our efficient and eco-friendly system ensures that there are no long lines at your wash bays, meaning that clients can get their cars back quickly and in pristine condition.

FLEET CAR WASH

E-Wash is committed to maintaining the cleanliness and neatness of your fleet at all times. We recognize the difficulties that come with preserving the quality of your vehicles on a large scale.

OUR CAPABILITIES

WHY E-WASH

WATER CONSERVATION

A typical wash bay consumes approximately 60 liters of water for each car wash, with a significant amount being wasted through runoff and evaporation. In contrast, E-Wash utilizes less than a liter of water per car wash.

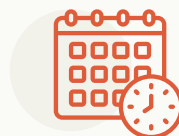

COST SAVING

By reducing water and electricity consumption, E-Wash can help your company achieve substantial savings on utility bills. Our services offer a cost-effective alternative to traditional car washes.

ZERO POLLUTION

Traditional car washes often employ harmful chemicals that can contaminate our natural water sources. At E-Wash, we prioritize environmental responsibility by utilizing 100% eco-friendly and soluble materials.

CONVINIENCE

Our portable and compact systems allow us to clean your cars right where they're parked, eliminating the need to move vehicles out of your showroom every week.

THE E-WASH PROMISE

OUR PRODUCTS

E-WASH COMPACT

Our compact equipment ensures that our technicians can wash your cars without the need to move them

CARNAUBA WAX

Carnauba wax offers a protective layer that enhances the shine of your car's paint, creating a showroom finish while safeguarding it from dust, rain, and road grime.

TYRE POLISH

Our tyre polish ensures your tires look brand new, and our rim shine is suitable for all types of rims

WATER SAVING

Our advanced technology ensures a quick wash for a regular sedan, completing the process in under 20 minutes. This saves both you and your customers precious time.

Average electricity bill for a traditional wash bay

OUR PACKAGES

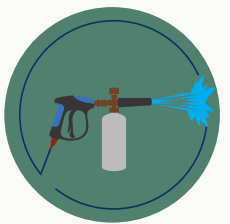

MANAGED CAR WASH SERVICES

E-Wash takes care of all your car wash requirements, providing staff and cleaning materials, allowing you to concentrate on your primary business.

STAFF TRAINING AND UPSKILLING

We recognize the value of your dedicated staff who have been serving your company for years. At E-Wash, we offer a proposal to enhance the skills of your employees and provide training on the optimal use of our E-Wash systems. This allows you to retain your valuable workforce while saving water and reducing costs.

EQUIPMENT RENTAL AND MANAGEMENT

E-Wash will lease out our water-saving car wash equipment to your company, ensuring that all equipment is well maintained, repaired or replaced in the event of damage.

COSTS

Our primary objective is to conserve water and reduce operational expenses. Our team of skilled consultants will assess your situation and recommend a customized package that guarantees cost reduction without compromising service quality.

"WATER IS THE KEY TO OUR FUTURE. WE MUST USE IT WISELY."
